

Find the colour of your garbage collection area on the map (on reverse), the corresponding colour on the calendar indicates your garbage collection day.

**On Statutory Holidays, there will be no garbage collection**

## RESIDENTIAL GARBAGE COLLECTION

The City of Prince George will **NOT** collect any carts that are overflowing with garbage. Please make sure all garbage is contained inside your cart, and the lid is completely closed.

### Give It Space

Provide at least 2m of clearance on all sides, including from your recycling bins.

## RECYCLING

For information about the curbside recycling schedule for your address and what items can be recycled, visit [recyclinginbc.ca/prince-george](http://recyclinginbc.ca/prince-george). For other recycling information, visit the website for the Recycling Council of BC: [rcbc.ca](http://rcbc.ca).

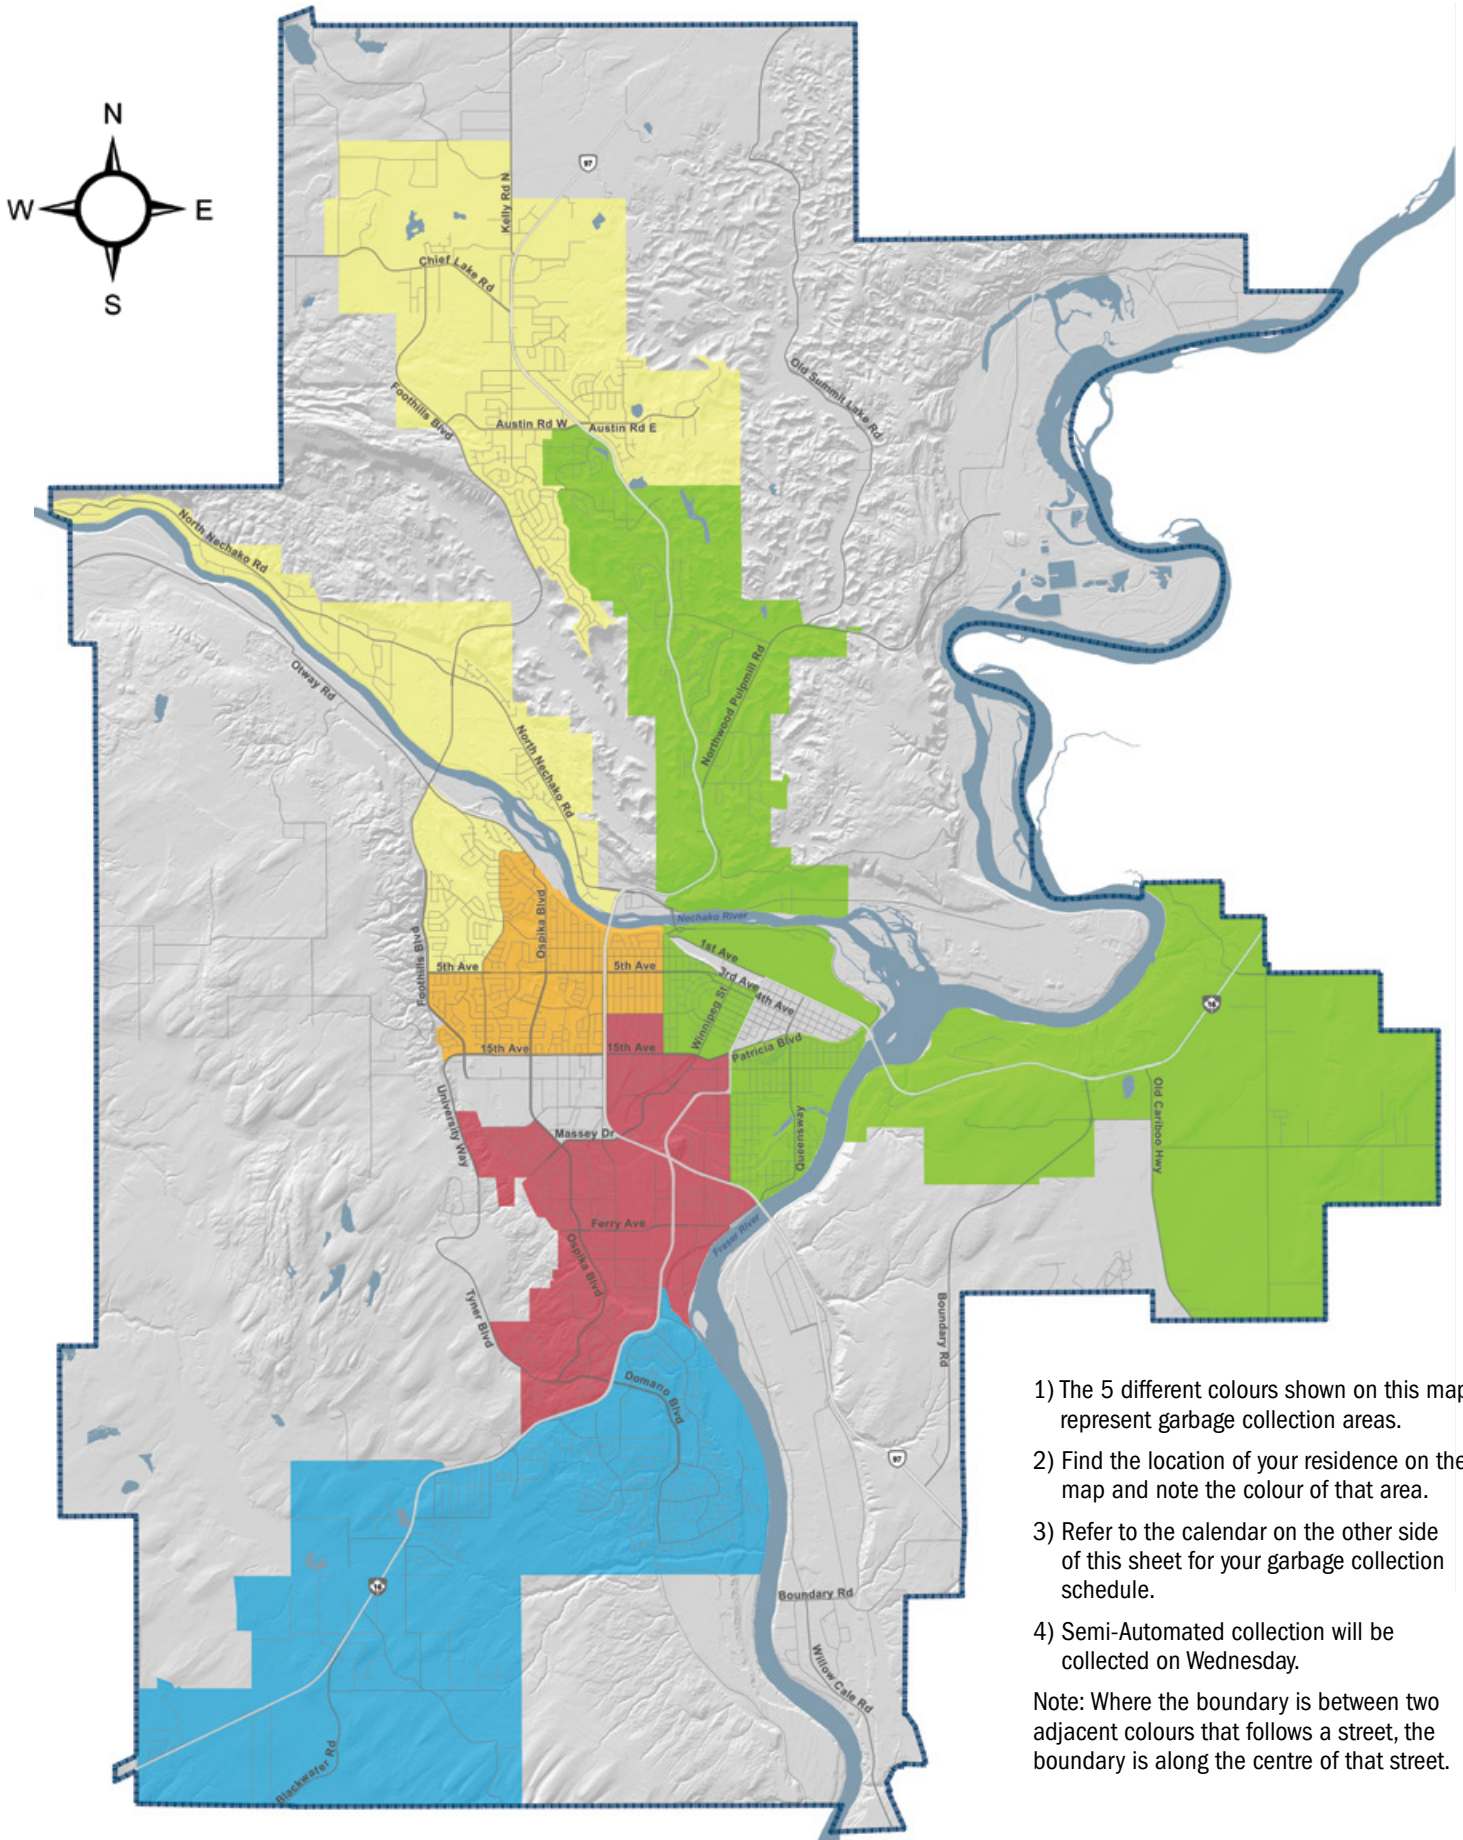

## REGIONAL DISTRICT TRANSFER STATIONS AND LANDFILL

For information about hours of operation, fees, and regulations for the Quinn Street Recycling Depot, Vanway Transfer Station, and Foothills Boulevard Regional Landfill, visit [rdffg.bc.ca](http://rdffg.bc.ca) or call 250-960-4400.

## BE BEAR AWARE

Each year, many bears are attracted into Prince George city limits in search of food. Unfortunately, many "problem bears" have to be destroyed by Conservation Officers. There are a number of simple things we can all do to make a difference and maybe save a bear's life:

- Secure your garbage in a bear-resistant location such as your garbage or shed
- Place your garbage at the curb on the day of collection after 4:00am and before 8:00am.
- Clean your garbage cart to reduce odors.
- Take your bird feeder down from April to November.
- Keep your BBQ clean.

- 1) The 5 different colours shown on this map represent garbage collection areas.
- 2) Find the location of your residence on the map and note the colour of that area.
- 3) Refer to the calendar on the other side of this sheet for your garbage collection schedule.
- 4) Semi-Automated collection will be collected on Wednesday.

Note: Where the boundary is between two adjacent colours that follows a street, the boundary is along the centre of that street.
